

READY SET DONE

Husqvarna battery-powered products are a truly versatile range of handheld equipment for lighter land- or hardscaping jobs. Lightweight, powerful and packed with benefits – for you as well as for those around you.

ONE BATTERY

Every Husqvarna battery works with every Husqvarna product. Quick to charge and even quicker to swap, they allow you to choose the battery combination perfect for you and the way you work.

HIGH PERFORMANCE

Strong, durable motors, superior power to weight ratio and smart features give you the power, performance and comfort you need for all-day, every day productivity. Almost all 500 series machines feature a motor designed in-house by Husqvarna to match motor and machine perfectly.

EASY TO USE

Low weight, low vibrations and easy, intuitive controls make our battery-powered equipment ergonomic and easy to use. Which helps your people stay happy, healthy and productive – and makes business more profitable.

ALL WEATHER USE

Keep on working, come rain, wind or sunshine thanks to high weather protection standards.

**BATTERY-POWERED
CORDLESS CONVENIENCE
FROM HUSQVARNA**

HUSQVARNA K 535i

THE NEW WAY TO THE PERFECT CUT

Husqvarna K 535i battery power cutter delivers most of what you've come to appreciate from its fuel-powered equivalents, while adding benefits such as low vibrations and weight and user-friendly ergonomics to the mix. It's almost maintenance-free and offers a low cost of ownership. And, on top of that, you can easily use it for wet cutting, no longer having to worry about the dust.

The excellent power-to-weight ratio makes K 535i a versatile addition for lighter land- or hardscaping jobs, perfect for the quick, efficient cuts. And since you don't have to depend on power from the grid, you can trust it to take care of business whenever, wherever it's needed.

ROPE EYELET

A foldable rope eyelet integrated in ground support, for maximized convenience.

ERGONOMIC HANDLES

The handles are specially developed to be comfortable and increases control for extra safety while cutting.

PERFECT BALANCE

The centered placement of the blade provides increased stability and control, compared to conventional angle grinders.

ELECTRIC BLADE BRAKE

For increased safety and ease of use, the blade will stop its rotation – from full throttle to zero in 3.1 seconds.

INTUITIVE KEYPAD

For perfect control, the intuitive keypad is designed for quick commands and features a saveE™ function.

WET AND DRY CUTTING

K 535i can be used for both wet and dry cutting. Adding wet cutting accessories like the WT 15 is easy and quickly done.

PREPARED FOR CONNECTIVITY

By adding a Bluetooth battery or a Fleet Services™ sensor, the power cutter can connect and transmit status data to, for example, Husqvarna Fleet Services™.

BATTERY BLADES

For fast cutting speed, minimized disturbance and wear, indicators have been customized for K 535i. The power cutter can also be fitted with abrasive discs up to 3 mm.

SMART BATTERY PLACEMENT

The side-fed placement of the battery maximizes cooling and minimize slurry and dust containment.

LIGHTWEIGHT MANOEUVRABILITY

The slim design and low weight of only 3.5 kg makes the K 535i easy to lift, control and manoeuvre during operation.

K 535i	
TECHNICAL SPECIFICATIONS	
Motor	Brushless Husqvarna motor
Nominal voltage, V	36
Recommended batteries	Bli200 / Bli300
Blade size, mm	230
Max blade speed, rpm	5940
Cutting depth, mm	76
Run time, min	Up to 18

*Given guidelines are indicative only and may not always be repeatable from one setting to another (using MTX 35 Silent core blade starting with a fully charged battery).

HUSQVARNA BATTERY POWER

READY. SET. DONE.

Husqvarna's battery-powered products rely on a range of lightweight, powerful lithium-ion batteries, arranged in an optimised set-up. The one-battery system means that the battery fits any machine, providing both convenience and flexibility.

Thanks to a smart and rigorously tested design, our battery machines fulfil IPX4 – a high weather protection standard for electronic products. This makes them long-term reliable working tools, especially in wet conditions. The batteries are kept at optimal temperatures through active cooling. Charging is both quick and easy with the intuitive Husqvarna chargers.

The high-energy set-up of the battery cells translates into powerful output.

The batteries and motors are all developed and tested by Husqvarna to fit perfectly for Husqvarna products, making the machines well-balanced and the perfect match for any task. So, no matter if you need to cut, blow or trim – there'll always be a machine for you.

Are you ready? Or are you already done?

** Local offer and access may vary. For information contact your Husqvarna Construction representative.*

BUILT TO PERFORM. READY TO DELIVER.

Quick starts. Cordless convenience and low noise. Free from direct emissions and smoke. And impressive battery-powered performance. All rolled up in a range of user-friendly, excellently balanced machines with impressively low vibration levels.

Husqvarna's range of battery-powered products are always adapted for the job at hand. The motor and battery have been optimised for each machine in order to provide the very best combination of comfort, balance and performance. And since every charge costs a fraction of refuelling a petrol tank, you will repay your investment in Husqvarna battery equipment sooner than you think.

Convenient. Flexible. With all the power needed to get the job done.

QUIET. CLEAN. AND MORE PRODUCTIVE.

LOW WEIGHT

Thanks to the optimised layout of the battery cells, the Husqvarna batteries are lightweight while still providing impressive power and long battery life.

LOWER RUNNING COSTS

Our battery machines pay for themselves quicker than you might think. And once they do, you save money every time you charge them up, them up.

LESS NOISE

Quiet, electric motors also mean you can start working earlier and finish later – even in areas with strict noise regulations. Your days are simply more productive.

NO FUMES

Husqvarna battery powered motors offer performance equivalent to petrol-powered engines, without the harmful emissions and fuel consumption.

ONE BATTERY

Every Husqvarna battery works with every Husqvarna product. This allows you to choose the battery combination perfect for you and the way you work.

HUSQVARNA BATTERY-POWERED RANGE

HUSQVARNA POWER CUTTERS

Husqvarna battery-powered equipment is as convenient as it gets. Our battery-powered power cutter, enables the quick and easy cuts wherever it's needed without the need for cords or depending on access to the grid. The perfect choice for land- and hardscapers alike.

HUSQVARNA K 535i FOR THE QUICK, EASY CUTS

The battery-powered power cutter with excellent output that enables flexibility for lighter jobs. The power cutter is both ergonomic and lightweight, the blade is easy to change. Thanks to the placement of the blade, you get increased control when cutting.

Brushless motor
3.5 kg excl. battery
saveE™ for maximum runtime
Intuitive key pad

HUSQVARNA BATTERY BLADES

Husqvarna battery blades have been developed to provide optimised performance and smooth operating. The blades are specially designed for K 535i and are equipped with silent cores and a number of additional smart features.

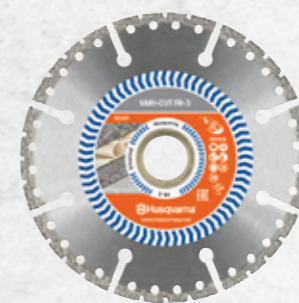

ELITE-CUT S35 BAT

Providing a maximum cutting speed and wear resistance in all heavy cutting jobs. Low vibrations with the continuous rim and silence core. Equipped with smarter features for increased operator safety.

TACTI CUT S35 BAT

Providing a good balance between performance and price in all cutting operations. Low vibrations with the continuous rim and silence core. Equipped with smarter features for increased operator safety.

VARI CUT FR3

Has one layer of vacuum brazed diamond for fast cutting of a large variety of materials like tiles, stone, rebars, fibre board, PVC pipes and more.

ABRASIVE DISC BAT

Conventional abrasive disc specially recommended to cut metal and rebars.

HIGH PERFORMANCE, SAFETY AND LESS STRAIN HELP PRODUCTIVITY

Husqvarna's lightweight, low-vibration battery saws can make all the difference when every gram counts. They are designed for maximum performance with safety in mind: easy on / off function, an intuitive user interface for a clear status view, protective chain- and blade brake, and low noise for easier communication with others. And not at least, longer working shifts in noise-sensitive environments without annoying idle driving.

HUSQVARNA CHAINSAWS

Available in versions for professional tree care use and arborists, as well as for carpentry and domestic woodcutting. The high chain speed makes them excellent alternatives to petrol saws.

HUSQVARNA 535i XP® HIGH POWER. LOW WEIGHT.

Powerful chainsaw ideal for light pruning and tree removal where you need the extra reach a rear handle saw offers. Well-balanced design, low weight and high centre of gravity ensure extra manoeuvrability, while the inertia-activated chain brake makes work safer. High speed (20 m/s) chain enables smooth, efficient cutting.

Bar length 25 – 35 cm
2.6 kg excl. battery
Chain speed 20 m/s
savE™ for maximum runtime

HUSQVARNA T535i XP® FOR FULL-TIME ARBORISTS

Efficient, lightweight and well-balanced top-handle chainsaw for pruning and small crown reduction. Compact design, easy start / stop and high centre of gravity ensures easy manoeuvrability and work, even in tough conditions. High (20 m/s) chain speed contributes to smooth, efficient cutting, while the effective inertia-activated chain brake improves safety.

Bar length 25 – 35 cm
2.4 kg excl. battery
Chain speed 20 m/s
savE™ for maximum runtime

HUSQVARNA POLE SAWS

Husqvarna battery pole saws for professional use provide performance levels equal to petrol pole saws. In the pole saw product range, you'll also find forestry clearing saws.

HUSQVARNA 530iP4 HIGH CHAIN-SPEED FOR EFFECTIVE PRUNING

Robust pole saw with reach up to 4 m. Slim saw head, low weight and well-balanced design mean low vibration levels and greater efficiency, while the high (20 m/s) chain speed increases productivity.

Bar length 25 – 30 cm
3.4 kg excl. battery
Chain speed 20 m/s
Length 250 cm
savE™ for maximum runtime

HUSQVARNA 530iPT5 TELESCOPIC POLE SAW WITH UP TO 5,5 M REACH

Well balanced ergonomic design with low weight, low vibration levels and slim saw head. Easy-adjust telescopic pole allows you to reach up to 5.5 m precisely and safely, while the sawhead design and bar position gives the best possible view for the operator.

Bar length 25 – 30 cm
5.0 kg excl. battery
Chain speed 20 m/s
Length 400 cm
savE™ for maximum runtime
Telescopic

HUSQVARNA 530iPX ROTATABLE CUTTING HEAD FOR PRECISION CLEARING AND CUTTING

Agile, lightweight forestry clearing saw offering well-balanced design with low vibration. 3/8" low profile chain with high (20 m/s) cutting speed enables high-performance cutting.

Bar length 25 – 30 cm
3.1 kg excl. battery
Chain speed 20 m/s
Length 180 cm
Adjustable cutting head (90°)
savE™ for maximum runtime
Backpack harness required to attach flexible cord

HUSQVARNA HEDGE TRIMMERS

Husqvarna battery hedge trimmers' powerful motors, long blades, high cutting speed and pivoting rear handles, help ensure the best working position and work result.

HUSQVARNA 520iHD70 70 CM HIGH-SPEED BLADE FOR EXTRA CAPACITY

Lightweight, balanced design with high-speed blade for efficient work, even during long shifts. The rear handle can be twisted for easier vertical trimming. SavE™ mode extends battery life for more runtime between charges.

3.9 kg excl. battery
4000 cuts / min
70 cm cutter bar
savE™ for maximum runtime
Twistable rear handle

HUSQVARNA 520iHD60 LIGHTWEIGHT WITH GREAT BALANCE

Agile, lightweight and efficient hedge trimmer with 60 cm high-speed blade. Balanced design helps ensure efficient work, even during long shifts. Rear handle can be twisted for easier vertical trimming. Economy savE™ mode extends battery life for more runtime between charges.

3.8 kg excl. battery
4000 cuts / min
60 cm cutter bar
savE™ for maximum runtime
Twistable rear handle

HUSQVARNA 520iHE3 REACH THAT LITTLE BIT HIGHER

Up to 3.5 m reach enables easy and comfortable trimming of wide, high and low hedges. 55 cm high-speed cutting deck for unbeatable power and performance. Lightweight, balanced design with adjustable cutting deck facilitates efficient work even during long shifts.

4.1 kg excl. battery
4000 cuts / min
55 cm cutter bar
savE™ for maximum runtime
Transport mode

HUSQVARNA BLOWERS

Extremely quiet – perfect for work in noise sensitive and environmentally restricted areas. They are ideal for both outdoor and indoor use – in arenas, playgrounds, garages and barns.

HUSQVARNA 530iBX PURE FORCE. LOW NOISE.

Handheld blower with impressive airflow and smart features such as a silencer, a metal frame on the tube to protect from wear, intuitive key-pad, optimal grip and belt hook to ease the load on arms and shoulders.

91 dB(A)
16 N (boost)
846 m³/h
2.9 kg (2.5 kg excl. cable)
Cruise control and boost mode

HUSQVARNA 525iB TOTAL FLEXIBILITY POWERFUL PERFORMANCE

Lightweight, comfortable and powerful blower for use with either backpack or integrated battery. Low weight, well balanced design and smart features including different tube options, metal ring on the tube to reduce wear and convenient belt hook for attaching harness.

98 dB(A)
14.5 N (boost)
798 m³/h
2.4 kg excl. battery
Cruise control and boost mode

HUSQVARNA BRUSHCUTTERS

Husqvarna battery trimmers and brushcutters are powerful enough for heavy use with grass blades and handles designed to increase ergonomics and make work more efficient.

HUSQVARNA 520iRX GREAT ON SLOPES

Powerful brushcutter with twin line cutting system and Tap-n-Go function for quick and easy line feed. Two-way trimmer head rotation means less grass on walkways. 3-tooth grass blade (included) tackles rougher areas rougher areas.

3.8 kg excl. battery
savE™ for maximum runtime
40 cm cutting diameter
Two-way rotation trimmer head
T25B trimmer head
3-tooth grass blade
Balance 35B harness

HUSQVARNA 520iLX CLEAR A PATH TO SUCCESS

Effective, lightweight trimmer with intuitive keypad for easy starting and stopping. Twin-line cutting system with Tap-n-Go function enables quick and easy line feed, while two-way trimmer head rotation means less grass on walkways, walls and other obstacles.

3.0 kg excl. battery
savE™ for maximum runtime
Two-way rotation trimmer head
40 cm cutting diameter
Adjustable handle
T25B trimmer head
3-tooth grass blade (optional accessory)

QUICK CHARGING. LONG-LASTING PERFORMANCE.

The Husqvarna BLi battery system is the most flexible available on the market today, with performance second to none. Every Husqvarna battery works with every Husqvarna product, making investing in the battery system a really smart – and economic – choice. Since every charge costs a fraction of refuelling a petrol tank, you will get your investment in Husqvarna battery equipment back sooner than you think. Just charge up, plug in and switch on.

Husqvarna chargers are constructed to keep your battery-powered equipment up and running. Our range of chargers and smart charging algorithm quickly charges the battery up to 80% – in as little as half an hour – before it continues with the last 20%.

BATTERIES

HUSQVARNA BLi100 / 200 / 300
HIGH POWER. LOW WEIGHT.

Batteries with both excellent runtime and capacity to weight ratio. They all feature a 4-LED charge level indicator, all-weather operation and excellent cooling. Rechargeable more than 1,500 times.

Capacity: 2.6 / 5.2 / 9.4 Ah
Weight: 0.8 / 1.3 / 1.9 kg

CHARGERS

HUSQVARNA QC500
FOR SUPER-FAST CHARGING

Charges BLi300 50% faster than the QC330 charger. Active battery cooling for minimum charge time and longer battery life, plus 2-LED status indicator and high-power output.

HUSQVARNA QC330
OPTIMISED FOR ALL BLi-BATTERIES

Quick charging unit with 2-LED status indicator and active battery cooling for minimum charge time and longer battery life.

HUSQVARNA QC80F
FIELD CHARGER

For charging in 12 V car / truck outlet in the field.

HUSQVARNA VI 600F
INVERTER

Enables charging in the field by converting 12 V DC from any lead acid battery to 220 V AC for your QC500, QC330 or QC80F quick chargers.

ACCESSORIES

HUSQVARNA BATTERY BAG

Keeps batteries warm in winter and cool in summer. Effectively absorbs shocks and protects against dirt, grime and moisture. Fits BLi200.

HUSQVARNA BATTERY BOX

Box for safe transport and storage of Husqvarna batteries, chargers and other accessories.

HOW LONG WILL THE BATTERY LAST?

The working time available with a fully charged battery depends on three variables: the capacity of the battery, which machine the battery is used with and if you're doing light or tough cutting / trimming. The chart shows an estimate of the operating time you can expect from your Husqvarna battery equipment in different work situations your results may vary.

The charging time for a fully discharged battery depends on the capacity of the battery and which of the chargers you use. In many cases the charging time will be shorter than the working time. This means with two batteries available, you can work continuously – one battery operating and the other battery charging.

CHARGING TIME FOR DIFFERENT BATTERIES AND CHARGERS

BATTERY	CHARGING CYCLES	QC500 CHARGING LEVEL		QC330 CHARGING LEVEL		QC80F CHARGING LEVEL	
		80%	100%	80%	100%	80%	100%
